Re: Utilization of Cathedra Grant

Subsequent to the resolution of the Technion's management dated 3.25.88, I hereby reinform you on the rules for the utilization of cathedra grant, following the amendments inserted.

The research grant for a cathedra holder is intended for hiring a research team, purchasing equipment, materials or literature for research, payment of membership fees in professional unions, travels for scientific relations and conference attendance fees.

In special cases, the grant may be used to invite academic guests for short periods, after obtaining the approval under the academic regulations to invite academic guests.

Any other expenditure (related to the research activity of the cathedra holder) will be brought to the approval of the Executive Vice President for Research.

Kind Regards,
Prof. Moshe Sidi
