From: The Executive Vice President for Academic Affairs

Re: Location of Performing Post-Doctoral Research

As a rule, all Post-Doctoral fellows are required to be physically present at the Technion for the period of their fellowship to perform their research. However, in special cases where the fellow's physical presence is required, for research purposes, in another laboratory or research facility in the world, exception can be made for partial or all of the fellowship duration.

In such a case, a request must be submitted by the fellow's supervisor, specifying the location, the length of the expected absence from the Technion and the research-related justification. The request must be forwarded for the approval of the EVPAA via the Head of Academic Visitors and Post Doctorates Unit, along with a recommendation of the faculty dean.

Yours sincerely,

Professor Naama Brenner,

Executive Vice President for Academic Affairs

CC: Technion Administration

Ms. Rita Bruckstein – Head, Research Authority
